(olivia) Lost And Turned Out

The Whispers

Olivia the slave, got distracted on her way to grandmother's house
A wolf in lamb's clothing came
Blew her mind and changed her ways and now she's turned out
Lost and turned out, lost and turned out
She's spending most of her time
Walking the streets
She has a certain quota to fill
He wants to buy a new Seville
Olivia the slave, got distracted on her way to grandmother's house
A wolf in lamb's clothing came
Blew her mind and changed her ways and now she's turned out
Lost and turned out, lost and turned out
What is the world coming to
So many are used and abused
There's over 10 million girls
Who are lost, in this world
What will your kin folks say, Olivia, the slave
It must be breaking their hearts in two
Listen close, they're calling you
(Olivia, Olivia, Olivia, Olivia)
Olivia the slave, got distracted on her way to grandmother's house
A wolf in lamb's clothing came

Blew her mind and changed her ways and now she's turned out
Lost and turned out, lost and turned out
Olivia, where's your will
(She's lost and turned out)
Don't buy that guy no Seville
(Lost and turned out)
Olivia, the slave
(Lost and turned out)
Don't let him drag you to your grave
(Lost and turned out)
Olivia where's your mind
(Lost and turned out)
He pulls you down all the time
(Lost and turned out)
Olivia stop and think
(Lost and turned out)

He's taking your cash to his bank
(Lost and turned out)
Olivia break the chains
(Lost and turned out)
Stop using your body and use your brain
(Lost and turned out)
