

# Big Bang Generation

## Duran Duran

Falling into space  
At the end of time  
Black as the black in your eye  
Staring through a hole in the ozone  
There's nobody home  
To play back your ansaphone  
Climax out of blue  
Is it just another high?  
No there must be something new  
Now that I'm so alien Entering the atmosphere  
Don't know what is waiting here (oh no)  
If there's nothing left to fear  
When we come together in  
The Big Bang Generation Teardrop in the sky  
Bursting my eye  
Sound of a morning sigh  
This life is stranger than fiction  
Surreal addiction  
It's all I recognize  
Feeding off the habit  
Losing control  
Where is it leading to?  
Now that I'm the alien Entering the atmosphere  
Don't know what is waiting here (oh no)  
If there's nothing left to fear  
When we come together in  
The Big Bang Generation (Feel like I'm losing control)  
Big Bang Generation  
(Now that I'm here all alone)  
Big Bang Generation  
(Feel like I'm losing control)  
Big Bang Generation  
(Feel like I'm losing it)  
We're gonna come together here Where you coming from?  
When we gonna burn out? Don't know  
Having so much fun  
Greetings from the Big Bang Generation  
Big Bang Generation Meet you in the Big Bang Generation  
Together in the Big Bang Generation

Together with the Big Bang Generation
