

Disco Heat

[Calvin Harris](#)

Inside me, inside me is a flame
That burned brighter anytime you came
Gets in the way when I'm alone with you
But disappears if I'm with someone new
It learnt how to fit into my foreplay
With my skills our love was going okay
Until the night when we were on the phone
You're moving on what better
Inside me, inside me is a flame
That burned brighter anytime you came
Gets in the way when I'm alone with you
But disappears if I'm with someone new
It learnt how to fit into my foreplay
With my skills our love was going okay
Until the night when we were on the phone
You're moving on what better
