

Glory

Audio Adrenaline

Now you and me were meant to be
A little lower than the angels
And on this ground I have found
Finally found a reason To sing glory
To sing glory I long to walk hand in hand
Down a golden road with Father
Where choirs of angels
Praise His name and I want to learn To sing glory
To sing glory And I can't find words to say
Life gets in the way
Lord You know my heart's desire When it all comes down to who You are
Words cannot convey
When it all comes down to who You are
Words get in the way And I can't find the words to say
Life gets in the way
Lord You know my heart's desire
And I can't find the words to say
Life gets in the way
Lord it is my heart's desire To sing glory
To sing glory And I can't find the words to say
Life gets in the way
Lord You know my heart's desire
Lord You know my heart's desire To sing glory And I can't find the words to say
Life gets in the way
Lord You know my heart's desire
When it all comes down to who You are
Words get in the way
