1.618

Allegaeon

Phi universal law constant occurrence
design absent of flaws natural appearance
with DNA and galaxies we approach infinity
nothing split by unity is the constant creation
divine proportion defines perfection
with this comes enticing shapes
supreme equation from formation
the formula of 1.618
a pattern beyond man a blueprint of divinity
the spiral of god eternal plan forever the line divided
nothing split by unity is the constant creation
divine proportion defines perfection
with this comes enticing shapes
supreme equation from formation
the formula of 1.618
phi patterns symmetry surrounds us
design precise product of the universe
with DNA and galaxies we are one with infinity
nothing split by unity is the constant creation
divine proportion defines perfection
with this comes enticing shapes
supreme equation from formation
the formula of 1.618
