

Elegy

The Liberty

I flight near the chaos out of reality
Made of powers cast of this elegy
I hate fucking physical attraction
Proof of image is only satisfaction
I must believe and I must deserve
No one over you, over me or over them
I must believe and I must deserve
No one over you, over me, or over them
Right now Im losing my mind again
My self destruction front of them
Its not a kind of attitude
Its another way to die
And now Im freezing again
My sweat I penetrate again
My memory It body to light
And people its by your side
If you said is a chaos
Please hear my prayer
Cause at the end,
I carrying the doubt
I flight near the chaos out of reality
Made of powers cast of this elegy
I hate fucking physical attraction
Proof of image is only satisfaction
I must believe and I must deserve
No one over you, over me, or over them
I must believe and sing
My elegy
Everybody knows about you
Everybody knows about your fears
Nobody is taking care
Nobody wants you alive or we lose again
Darkness in the road
Like an oasis of pain
I can save you mad world
I will come again
If you said is a chaos
Please hear my prayer
Cause at the end,
I carrying the doubt
I flight near the chaos out of reality
Made of powers cast of this elegy
I hate fucking physical attraction
Proof of image is only satisfaction
I must believe and I must deserve
No one over you, over me, or over them

I must believe and I must deserve
No one over you, over me, or over them I flight near the chaos out of reality
Made of powers cast of this elegy
I hate fucking physical attraction
Proof of image is only satisfaction
I must believe and I must deserve
No one over you, over me, or over them
I must believe and sing
My elegy
