

# I Want You Baby

[Billy Lee Riley](#)

I want you baby  
I love you baby  
I need you more and more each day  
Can't live without you  
I dream about you  
I wait for you both night and day Why did you leave me  
Why did you grieve me  
You know it hurts me so  
You know I love you  
By stars above you  
I never ever let you go  
I want you baby  
I love you baby  
I love you more in every way Why did you leave me  
Why did you grieve me  
You know it hurts me so  
You know I love you  
By stars above you  
I never ever let you go  
I want you baby  
I love you baby  
I love you more in every way  
I want you near me  
Why can't you hear me  
I love you more in every way
