The New

Interpol

I wish I could live free I hope it's not beyond me
Settling down takes time
One day we'll live together and life will be better
I have it here yeah in my mindBaby, you know someday you'll sorrow
And baby, my heart's been breakingI gave a lot to you
I take a lot from you too
You slave a lot from me
Guess you could say I gave you my edgeI can't pretend I need to defend some part of me from you
I know I've spent some time all lying
I can't pretend I don't need to defend some part of me from you
I know I've spent some time all lying
