

Nothing To Lose

Operator

Yeah, honey, you've been trippin'
Are you ready? Don't give a fuck
'Cause you've got nothing to lose now, baby, got it on Who says you don't want it? Can't take it
If you've really got nothing to lose now, baby, got it on
Never realized the pain you caused inside
It's easy every time When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on Yeah, honey, aren't you ready? Don't you get it?
Even if you've got nothing to lose out, baby, get it on
Never realized the pain you caused inside
It's easy every time When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on Will I never understand the reasons why you can
Change the things you can? It's so simple man
And you never realized the pain you caused inside
It's easy every time When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on
When you've got nothing to lose then, baby, you got it on
