Ain't No Room

The Vines

There ain't no room for me in the city
The lights go down but it looks so pretty
So take me away from the corner
Let me hide away in the fauna
With something at my side

Forget it now
Forget it then
We'll hang around without a care

There ain't no room for me in the city
The lights go down but it looks so pretty
So take me away from the corner
Let me hide away in the fauna
With something at my side

Going outta my head
Was it something I read

Forget it now
Forget it then
We'll hang around without a care
