

# Ain't No Room

## The Vines

There ain't no room for me in the city  
The lights go down but it looks so pretty  
So take me away from the corner  
Let me hide away in the fauna  
With something at my side

Forget it now  
Forget it then  
We'll hang around without a care

There ain't no room for me in the city  
The lights go down but it looks so pretty  
So take me away from the corner  
Let me hide away in the fauna  
With something at my side

Going outta my head  
Was it something I read

Forget it now  
Forget it then  
We'll hang around without a care
