Satisfied

PFR

I never want to be satisfied
Just when I thought I had everything it was a lie
For so long now I've been wasting time
Wasting timeWinter springs or summer fall
The seasons never cared at all
That I was never changing
My colors stayed the sameBut when days go by and I'm not growing
The leaves fall off the bare what I'm not showing
That I've never had my feet wet
And for that I am to blameI never want to be satisfied
Just when I thought I had everything it was a lie
For so long now I've been wasting time
Wasting timeI've sat and watched the tide go out
But I did not chase, no I did not doubt
The water would return to shore
And meet me once againAnd I've known the truth and understood
Or thought I did, or thought I could
Be satisfied with points of view
But I'm tired of the dinI never want to be satisfied
Just when I thought I had everything it was a lie
For so long now I've been wasting time
Wasting timeWinter spring or summer fall
The seasons never cared at all
Winter spring or summer fall
I'm still changingWinter spring or summer fall
The seasons never cared at all
Winter spring or summer fall
I'm still changingI never want to be satisfied
Just when I thought I had everything it was a lie
For so long now I've been wasting time
Wasting timeWinter spring or summer fall
The seasons never cared at all
Winter spring or summer fall
I'm still changingWinter spring or summer fall
The seasons never cared at all
Winter spring or summer fall
I'm still changing
