God Bless

Lamb

You're gonna feel the wind at your heels, you know
You're gonna feel a sparkle in your step
Everything will touch you in a different way, yeah
Let it come, soon come, let it come
'Cause I'm gonna make you feel lighter than the air aboveLet me breath it into you
Let me breath it into you
Let me breath it into youAn angel's smiling on everything we do
Let them try to stop this good thing growing
'Cause there's no dark cloud gonna leave a shadow on there
Gotta keep it strong, keep it true, keep it strong
And I'm gonna build you up and build you upGotta keep this natural thing
Gotta keep this precious thing
Gotta keep it going on and growing strongHere's to happiness
God bless the day
That made me feel this way
Here's to happiness
God bless the day
That made me feel this way
Feel this wayGotta keep this natural thing
Gotta keep this precious thing
Gotta keep this natural thing
Gotta keep this precious thing
And I gotta keep it going on and growing strongHere's to happiness
God bless the day
That made me feel this way
Here's to happiness
God bless the day
That made me feel this way
Feel this way
Feel this wayHere, here, here, here
To happiness
Here, here, here, here
To happiness
Here, here, here, here
To happiness
To happiness
To happiness
To happiness
