

Christmas Everywhere

Lisa Kelly

Snowfall, friends call, welcome back home
Church bells, we tell strangers "hello"
Warm gloves, big hugs, hot apple cider
Moon bright, midnight, still by the fire

Mantels, candles, carols we sing
Laughing, dancing, trimming the tree
Reindeer I hear outside my window
Sleigh rides we fly streetlights below

Snow globe memories come to life
Like a child we dream tonight
Time is frozen in mid air
Christmas everywhere

London, Dublin, New York, Paris
Cornfields, green hills, downtowns, hamlets
Christmas lifts us right where we are
December forever rest in our hearts

Snow globe memories come to life
Like a child we dream tonight
Time is frozen in mid air
Christmas everywhere

So entering less frantic-ness
We pause to feel the
Peace on earth
Awake

Snow globe memories come to life
Like a child we dream tonight
Time is frozen in mid air
Christmas everywhere

London, Dublin, New York, Paris
Cornfields, green hills, downtowns, hamlets
Snowfall, friends call
Welcome back home
