## Wake Up

## **Colton Dixon**

Is anybody out there You wonder as you close your eyes Does anybody even care, anymore? You're stuck inside the same dream Waiting on the sun to rise But deep inside your heart screams, for moreWake up! The story begins when we open our eyes Chains will be broken and the dead will rise This is the moment, we are alive, alive, alive Wake up! We gotta wake up! We gotta wake up! We gotta wake up! We're coming to life We're coming to lifeWelcome to the nightmare A state of complacency But you don't wanna be here anymoreWake up! The story begins when we open our eyes Chains will be broken and the dead will rise This is the moment, we are alive, alive, alive Wake up! We gotta wake up! We gotta wake up! We gotta wake up! We're coming to lifeWake up! We gotta wake up! We gotta wake up! We gotta wake up! We're coming to life (Wake up) We're coming to life (Wake up) We're coming to life (Wake up) We're coming to life
