Royalty (feat. Rio)

Solo Sinatra

I would treat you different
You would feel the love
Nobody knows your body, nobody's quite like us
Love of my life you are my light and always put it down
Bite on my finger when you're moaning and you get too loud
Cause I can tell and I'm aware you're having feelings for me
I feel your presence it's your essence, something special for me
You can join the castle
We can say our love
I'll be the King you be my Queen we can live it up
Look where we ended up your hair resting on my left shoulder
Rushing you won't leave me alone and make this love eternal

Cause we could be lovers over and over again [x2]
Baby you could be my Queen and I could be your King
[x2]

You would be royalty, baby you would be loved
No one but me and you, isn't that what you want
You would be royalty, isn't that what you want
You would be royalty, baby you would be loved
No one but me and you, isn't that what you want
Isn't that what you want, isn't that what you want

Cause we could be lovers over and over again
[x2]
Baby you could be my Queen and I could be your King
[X2]

Servants at your feet, you'll never lift a hand
I'll bring the bread and be the head and always be a man
You need to understand my spirit sitting right beside you
I think it's stronger from the pain that we went and gone through
I'm living proof I tell the truth this man has always loved you
I miss the life, the times wishing I was close to touch you

I wipe my eyes so I can hide all that evidence
My life on empty ever since I left your residence
The love was so intense the lust made it fall apart
She knows she has my heart, searching for another star

You would be royalty, baby you would be loved
No one but me and you, isn't that what you want
You would be royalty, isn't that what you want
You would be royalty, baby you would be loved
No one but me and you, isn't that what you want
Isn't that what you want, isn't that what you want

Look, straight up you don't even have to raise a finger
I just want your company for breakfast lunch and dinner
In between the time you can shop until you drop
Told her to think outside the box
Speak her mind cause money talks
So they listen, last person they didn't
Not in commission do anything for my Queen
Gotta protect the crown, she the future of the kingdom so I hold it down
Until my prince come around

You would be royalty, baby you would be loved
No one but me and you, isn't that what you want
You would be royalty, isn't that what you want
You would be royalty, baby you would be loved
No one but me and you, isn't that what you want
Isn't that what you want, isn't that what you want
