Pollute the Sound

Drist

Living out your live beyond belief,
We've come so far tonight,
It's on my mind, it's on the sheets.

Turn away from making the same mistake I swear I'd never make again.

We leave but through the night, beyond your needs,
This summer won't last this time,
It's on my mind, still on the sheets.

Turn away from making the same mistake I swear I'd never make again
you'll never make me hate you again as hard as you want me
as hard as you want me too.

You know it's easy to let goooooo,
At least we need, at least we tried.
to play something never there.

Turn away from making the same mistake I swear I'd never make again
your making the same mistakes,

How could I pollute the sound with you?

pollute the sound wiith you
pollute the sound with you.
