

Fire Girl

Iggy Pop

I loved you when it was alright
I'll love you when it all goes wrong
I'll love you when my eyes are open
I'll love you when my eyes are gone
Fire girl, say you will
Fire girl, say you will
I have no time to watch TV
Yours is the face that interests me
I loved you when you lost your raincoat
I'll love you when you lose your fear
Fire girl, say you will
Fire girl, say you will
Pockets full of rain
Bewildered by this change
Underneath the sky
I just want to fly
Fire girl, say you will
Say you will, fire girl
I'm so lonely
So just, just do it
Just do it, just do it
Fire girl, say you will
I got a pocket full of rain
