Where I Want To Be (California)

Lilly Wood & The Prick

Where I want to Be (California)I got blinded by the lights
of the cars and the city
I could easily shut my eyes
I could easily find my sleep
within this (?) around the blockNothing to tell
nothing to hide
you were blinded by the lights
I got lost in the citywe'll never go back to California 2 xI've been trying to find a smell
it's not all country that I miss
I wanted to grab your hand
it was holding onto something
a woman was staring at my eyesI thought it would be nice if you
promised we'd be finewe'll never go back to California 2 xOoh ooooh, We'll never go back to California 2xI'm
a liar and a cheat
I know time is on my side
I've got plenty of years to waste
I've got plenty of love to give
Why do I care to spare another lifetime by the sea
If you're standing there with me
than it's where I want to be
