

Too Young to Die

Jamiroquai

Everybody don't want no war, no, no, no, no
We're too young to die, too young to die
So many people all around the world, yeah, all around the word
Seen their brothers fry, I've seen your brother fry
What's the motive? In that madness, oh, I wish I knew
You've made my people cry, you've made my people cry
So politicians, this time I think you better keep your distance
Say, see and laugh, we're too young to
All gone when they drop the bomb, can the politicians reassure?
'Cause here I am presuming that nobody wants a war
There's so many people praying just to find out if they're staying
But lately stately governments and disillusioned leaders
So full of empty promises but rarely do they feed us
Put our backs against the wall or don't we count at all?
Can't you decide? Are you mesmerized?
Do you know which side you're standing?
'Cause when it falls, gonna take us all
Gotta know what we're demanding
I never lie, can't your hear the cry, coming from on high
We're too young to die
