Hold On

Twin Atlantic

Must have been something you said
You caught me off guard and alone
Running round the streets in the dark
Trying to find my homeYou can listen to my heartbeat
Like the rain pouding on open road
Let me whip you off of your feet
Let me show you how it feels to be the one
I know you're going to feel alive
I know you're going to feel aliveHold on
If you can be strong
It's a risk worth taking
To have a life worth living
You need to hold on
You need to hold onMust have been something you wrote
Or the look in your eyes that told me
No place to run or hide
No chance you're going homeYou can listen to my heart explode
Like the sound of the wind on the open road
Let me live in the eye of storm
Let me show you how it feels to be alone
I know you're going to feel alive
I know you're going to feel aliveHold on
If you can be strong
It's a risk worth taking
To have a life worth living
You need to hold on
You need to hold on
You need to hold on
You need to hold onI know you're going to feel alive
I know you're going to feel alive
I know you're going to feel alive
I know you're going to feel aliveHold on
If you can be strong
It's a risk worth taking
To have a life worth living
You need to hold on
You need to hold on
