

# Money Is Not Our God (Hideous Mix)

## Killing Joke

"Money is not our god - ready" Nine tenths of the law than sic  
Is possession  
Life expressed in matter is a blasphemy  
Success defined by acquisition stinks!  
So busy trying to make a living I forgot about living  
Yes I do  
So busy trying to make a living I forgot about life The best things I found in life were my birthright  
Green fields mean more to me than a brand new car  
Will you swap your hi-fi for a clear blue sky?  
Will you cash in all your shares for gods clean air?  
Is your answer yes, or no, to these painful truths?  
Is your answer yes, or no, to these painful truths? Do you grovel to your master?  
Do you beg like a dog?  
First things first, repeat to yourself  
Ahhh money!, money is not our god! Mine!  
The best things in life are free  
Mine!  
I own the beach and the blazing sunset  
Mine!  
I own the waves and the fresh air  
Mine!  
I drink the milk of the stars in this beautiful moment  
Say to yourself  
All these things are mine! Repeat after me!  
Money's not our god Do you grovel to your master?  
Do you beg like a dog?  
First things first, repeat to yourself  
Ahhh money!
