

Clear Blue Sky

Jimmy LaFave

Baby when I see you hey, my heart beats like a drum
Left in the pouring rain
You know I get this feeling in my soul
That I can't explain
There's a bit of sadness hiding deep inside your heart
Sometimes it makes you cry
Baby I can feel it
When you go walking by
And I can't stop the rain from falling
And dry all the teardrops in your eyes
But I can make love to you baby
Right out of a clear blue sky
Sweet sweet mystery
You are a work of art
In a state of grace
But do you ever notice me
In your time and place
And I can't stop the rain from falling
And dry all the teardrops in your eyes
But I can make love to your baby
Right out of a clear blue sky
And I don't even question why
'Cause I just know that we should be
This may be a moment to you
But it's a lifetime for me
Baby, when I see you my heart falls at my feet
And yeah I don't know why
But I can make love to you
Right out of a clear blue sky
