

North American Scum (Chris Menace Remix)

LCD Soundsystem

Oh oh oh
Oh I don't know, I don't know, oh, where to begin
We are North Americans
And for those of you who still think we're from England
We're not, no.
We build our planes and our trains till we think we might die,
Far from North America,
Where the buildings are old and you might have lots of mimes.
Aha, oh, oh.
I hate the feelin' when you're looking at me that way
Cause we're North Americans
But if we act all shy, it'll make it okay
Makes it go away. Oh I don't know, I don't know, oh, where to begin
When we're North American
But in the end we make the same mistakes all over again
Come on North Americans We are North American scum
We're from North America And all the kids all the kids that want to make the scene
Here in North America
When our young kids get to read it in your magazines
We don't have those
So where's the love where's the love where's the love where's the love where's the love tonight?
But there's no love man there's no love and the kids are uptight
So throw a party till the cops come in and bust it up
Let's go North Americans
Oh you were planning it I didn't mean to interrupt
Sorry
I did it once and my parents got pretty upset
Freaked out in North America
But then I said the more I do it the better it gets Let's rock North America We are North American scum
We're from North America
We are North American scum
We are North American New York's the greatest if you get someone to pay the rent
Wahoo North America
And it's the furthest you can live from the government un huh huh
Some proud American Christians might disagree
Here in North America
But New York's the only place we're keepin' them off the street
Boo boo now we can't have parties like in Spain where they go all night
Shut down in North America

Or like Berlin where they go another night, alright, un huh un huh
You see I love this place that I have grown to
know

Alright, North America.

And yeah, I know you wouldn't touch us with a ten-foot pole
'Cause we're North Americans. We are North American scum

We are North Americans

We are North American scum

We love North America Take me back to the states man

North American scum

Where we can be all we want if we really ??

North American

Where the dj gigs are as fun

Here in North American scum

Don't blame the Canadians

Let go North America
