

# Guttermouth

Bree Sharp

In this concrete jungle void of charms  
With the take-out, porn, and car alarms  
No one's bringing in armies in  
to keep the girls from speaking sin  
Blocks are stacking  
and the sounds of bricks is clacking  
while the cement mixes  
When the eyes of the workmen stop and fix this  
Chicks' mouths' full of asterixesGuttermouth, she spits on every curb  
And she flips the boys bird  
And every other word is from the  
Guttermouth  
She grabs her crotch in public  
And I guess that they're all stuck with  
The Guttermouth, Guttermouth  
Guttermouth, GuttermouthCity life is hard to cope with  
Sleazy groupers pushing dope  
Sometimes survivals only hope's  
A mouth that needs a wash with soap  
And water couldn't clean this town  
The sewers run above the ground  
The streets are like a lost and found  
For vagabonds who spew the sounds from the gutterOh, Guttermouth, mothers disapprove  
Of the vile talk and lewdness  
"Miss, stop the filth protruding from that  
Guttermouth,"  
though they try so hard to punish  
The boys all want to run with  
The Guttermouth, Guttermouth  
Guttermouth, GuttermouthShe's a fortune cookie  
Full of nasty puns and proverbs  
tucked inside her hot and sour mind  
But only skin is sugar coated  
Words are jagged and corroded  
Like the blunt and rusty axe she grinds-Filthy Quips From Dirty Lips-she's got tons of DNA  
but all they see is T&A  
a perfect lady looks that way  
knows what she can and cannot say  
To the bending men who alter their

Direction as the try to halt her,  
caterwaul as they assault her,  
after all this, can you fault hermouth...Guttermouth, her one serenity  
is showing her identity,  
Ain't in sainthood, but obscenity.  
Guttermouth, make her feel bad for her curves,  
and you're gonna get what you deserve,  
straight from the Guttermouth.  
Guttermouth, she spits on every curb  
And she flips the boys bird  
And ever other word is from the  
Guttermouth, says,  
'If you're gonna walk these blocks  
Then you'd better talk the tough talk  
Just like a guttermouth'  
Guttermouth, Guttermouth.
