Love Like A Man

Electric Food

You roly-poly
All over town
But you come on back to me
When things are down
Love like a man
Love all you can
Your satisfaction
Is growin' less
If you come on back to me
Use my address and let you
Love like a man
Love all you can
You are the woman
You can't deny

You look so good to me, girl
You make me high
I'll tell you something
I think you know
When you flash those eyes at me
All systems go, yeah
Love like a man
Love all you can
Love like a man
Love all you can
Love like a man
Love all you can
...
