Tell Me Why

Silent Force

[Beyrodt / Cooper]Did you see the light?
Pounding forces of the night
I don't want to die
There is no reason whyTrust and I'll take the pain
someone must show me now
Trust and I'll take the pain
Someone must show me nowDon't Ask Me Tell Me WhyAscend the mountain as a whole
They shoot with no control
Our leader is shook with fear
No reason why we're hereCaught in mid breath
the bullet took my heart out
I heard the sound so clear
I've seen the face
Of the man who took my life
There was a look of fear
On his FaceTrust and I'll take the pain
someone must show me now
Trust and I'll take the pain
Someone must show me nowDon't Ask Me Tell Me Why
