

Belly Side Up

[Matt Corby](#)

We are the fixture of industry
So then why go all undecided holding me?
I had to call up enlighten me
Up onto the way I saw the issues on dependency I have been torn up with the right to be
And I'm hoping for the day you won't go belly side up on me Stood in the corner when we would fight
To act upon a line and hang my shit up out to dry
And so it's over and you're mind's becoming open
I wait with you medicine until you come on over I have been torn up with the right to be
And I'm hoping for the day you won't go belly side up on me You, you don't speak the truth
How about the times you called me up and said we're through
You, you don't speak the truth
How about the times you called me up and said we're through I have been torn up with the right to be
And I'm hoping for the day you don't go belly side up on me
