

Shadow

Burden Brothers

I don't want to tie you down
I don't want to break your stride
So if you got to go then go
And I will be the shadow at your side You know I got to find out
Just what you're made of
'Cause this is your song now
'Cause this is your song now And I am the shadow at your side
I am the shadow at your side
I am the shadow at your side
I am the shadow So won't you put a light on
And put it in your window
To let me know you're at home
To let me know you're alone Know that I am watching
Always watching
Let me follow
Let me follow 'Cause I am the shadow at your side
I am the shadow at your side
I am the shadow at your side
I am the shadow Let me follow you
Let me follow you
Let me follow you
I will, I will
Let me follow you
Let me
Let me So won't you put a light on
And put it in your window
Let me know you're at home
Let me know you're alone Know that I am waiting
Always waiting
Let me follow
Let me follow And I am the shadow at your side
I am the shadow at your side
I am the shadow at your side
I am the shadow I am the shadow at your side
The shadow at your side
The shadow at your side
I am the shadow I am the shadow
I am the shadow
I am the shadow

I am the shadow
