

Do Something Real

Robert Pollard & Doug Gillard

Do something real
sidewalks chasing citizens racing
do something real
bloodhounds closing in on opposing men
do something real
crows like rats like cats on vacation
do something real
you've been scrapped I'm trapped at the station
small claims courts community snortsIt's fine when it's so concealed
extra special happiness
defined by an endless field of nothing real
do some thing real
crap stripe exits examiner expects it
do something real
plot of rockets holy ghost markets
small claims courts...
You'll die or you won't
you try or you don't
do something real
