

I God We

[khari lemuell](#)

God is great, God is good
God is mercy, God is peace
God is risen, God is joy
God is love And I know God exists
As an omnipresent force
Through a universal bid in us all So I'll remember
To be thankful everyday
And I chant forget to pray
I ought to remember All the once who died for me
They died that I might see that there
God's people would partake
In liberty
