

You Overwhelm Me

Robert Palmer

You overwhelm me
When you move your body next to mine
Won't you tell me?
How you always know what's on my mind? It's a fever you know how to soothe
And a calm contentment
Only you can get to You overwhelm me
Oh babe I think you look so fine I may be turned around
You'll show me the way
I may be tired of trying You'll show me the light of day
My imagination is fired
I had only dreamt love could be so inspired You overwhelm me
When you move your body next to mine It's a fever you know how to soothe
And a calm contentment
Only you can get to You fill my soul with desire
Only fools aren't afraid to be burned by fire You overwhelm me,
When you move your body next to mine
Won't you tell me?
Oh babe I think you look so fine? You overwhelm me yeah
Won't you tell me?
How you always know what's on my mind?
