

You Got The Flavor

New Kids On The Block

I don't really mean to lead you on
All I wanna do is take you home
You got that flavor
Baby, baby, you got the flavor
Baby, baby, you got the flavor
You got that flavor
You got it and I want it
You got the flavor and I really really need it, girl
Let's not get fakin', I want you to shake it
Pretty girl, I don't really wanna lead you on
I don't really mean to lead you on
All I wanna do is take you home
You got that flavor
Let's not get serious, just straight to business
Because your lovin' is all that I need.
My body's achin'
Don't feel like waitin', baby
Pretty girl, I don't really wanna lead you on
I don't really mean to lead you on
All I wanna do is take you home
You got that flavor
I really want it, I really need it
Baby, you got the flavor
I don't really mean to lead you on

All I wanna do is take you home
'Cause you got that flavor
Baby, you got it, baby, I need it
You got that flavor
Yo it's Donnie
Call me the player, ya dig
Like your style, trip with with a New Did
Said she didn't want to, changed her mind
Backseat in the jeep and then I went for mine
Gotta go low, real low, nice and slow
Can't miss one color on the rainbow
Don't front, girl, you know what is about
Take your chance, turn my taste buds out
I don't really mean to lead you on

(I really don't baby, I really don't baby)
All I wanna do is take you home
You got that flavor
Baby you got it, when I need it
Just come a little closer, babe
All I wanna say is
You got the flavor, baby, yes you do
And I wanna taste you each and every day
