

Chargin' Up My Batteries

Golden Earring

From the Album:

* CutWell I couldn't live if I don't see a mirracle happen
Stayin' up being here with you
And I do believe in a mistery that needs unraveling
Stayin' up being here with you, in tune.....
I'm runnin' around in circles painted on the ground
I don't know how they got us here
I don't know why it don't come clear
Confession that I have to make
Expression that I have to fake
This situation on the other hand
Is a matter I cannot comprehend
When plugs don't spark in the dark
I'm chargin' up my batteries
Gimme full capacity
Hey now any day now
It's no tragedy but I hear the good times fadin'
Like a spotlight changin' green to blue
Yes I do believe something better be happenin'
Before the night comes through
Ain't it true.....
