

White Wall

Mando Diao

Yellow burning thing, its a dirty sin, I know
Im on the pavement of my own mind its silly
Silly as the weather in June, March or December
Silly as a man can be, and Im down, yes Im down And I sang my la la teacher, my la la teacher for you
(Coming on the window)
My la la teacher, my la la teacher for you
(Im coming on the window again)
And watched my little baby from the seaside Do you remember the days when we were young?
All tied up by a teachers hand
I was too shy and they said youre too dry but I didnt notice
Flowers were hot in the cold winter night
And so was I, yeah so was I And I sang my la la teacher, my la la teacher for you
(Coming on the window)
My la la teacher, my la la teacher for you
(Coming on the window again)
And watched my little baby from the seaside Yeah, I watched my little baby from the seaside
I watched my baby from the seaside Though it's been far away, I'm gonna help you out
Though it's been far away, I'm gonna help you out
Though it's been far away, yes it's been far away, go go And I sang my la la teacher, my la la teacher for you
(Coming on the window)
My la la teacher, my la la teacher for you
(Coming on the window) My la la teacher, my la la teacher for you
(Coming on the window)
My la la teacher, my la la teacher for you
(Coming on the window again)
And watched my little baby from the seaside I watched my little baby from the seaside
I watched my baby from the seaside
I watched my baby from the seaside
