White Wall

Mando Diao

Yellow burning thing, its a dirty sin, I know

Im on the pavement of my own mind its silly

Silly as the weather in June, March or December

Silly as a man can be, and Im down, yes Im downAnd I sang my la la teacher, my la la teacher for you (Coming on the window)

My la la teacher, my la la teacher for you

(Im coming on the window again)

And watched my little baby from the seasideDo you remember the days when we were young?

All tied up by a teachers hand

I was too shy and they said youre too dry but I didnt notice

Flowers were hot in the cold winter night

And so was I, yeah so was IAnd I sang my la la teacher, my la la teacher for you

(Coming on the window)

My la la teacher, my la la teacher for you

(Coming on the window again)

And watched my little baby from the seasideYeah, I watched my little baby from the seaside

I watched my baby from the seasideThough it's been far away, I'm gonna help you out

Though it's been far away, I'm gonna help you out

Though it's been far away, yes it's been far away, go goAnd I sang my la la teacher, my la la teacher for you

(Coming on the window)

My la la teacher, my la la teacher for you

(Coming on the window)My la la teacher, my la la teacher for you

(Coming on the window)

My la la teacher, my la la teacher for you

(Coming on the window again)

And watched my little baby from the seaside I watched my little baby from the seaside

I watched my baby from the seaside

I watched my baby from the seaside
