Summer Well

Interpol

The fevered plastics that seal your body
They won't stop this rain, hey, hey
I was your eye in the night when the prophets fell
I said it looks like you summer well
I want to stay magical
I want to stay yearning
I want to feel up on your life
I miss you but it looks like you summered well
All the while the protest will shine the same
But you will never notice, it's alright
I rely on the process, the mind, the frame
They will never take this dream from me
It's alright, when they get back
It's alright
And it's all the way behind us
It's alright
I miss you, babe, and I want you back
The signs we gave, weren't those signs supposed to last?
The rainy days, the summers back
The signs we gave, so what was that?
You know that we have ways
To make the seasons touch these words
So let me take this, cover your eyes, we'll go
Wait until it fades
All the while the protest will shine the same
But you will never notice, it's alright
I rely on the process, the mind, the frame
They will never take this dream from me
It's alright
It's alright
You sent me
It's alright
You sent me
It's alright
It's alright
It's alright
You sent me
