

Gypsy Honeymoon

[Collin Raye](#)

Outta her head and outta her dreams
There he was just the way she'd seen him
Lookin' at her a thousand times before
She said, "I can't believe, it's been five long years
'Cause tonight they just seem to disappear
You still look the same, you haven't changed at all"
She said, "Take me away with you, we can ride on the wind
'Cause I feel a gypsy honeymoon comin' around again
Throw the car in gear, put the zoom on the lens
'Cause we're hot as a gypsy honeymoon comin' around again"
He said, "I still remember her sweet perfume
When it filled his head and it rocked the room"
They walked the wire of passion so alive
It's hard to hold on in these times
Did one of us change? [Incomprehensible]
You just can't imagine how lonely I've been
She said, "Take me away with you, we can ride on the wind
'Cause I feel a gypsy honeymoon comin' around again
Throw the car in gear, put the zoom on the lens
'Cause we're hot as a gypsy honeymoon comin' around again, yeah, oh"
We chase our hearts like open fires
Give ourselves to old desires
Surrender sweet and here we go again
She said, "Take me away with you, we can ride on the wind
'Cause I feel a gypsy honeymoon comin' around again
Just throw the car in gear, put the zoom on the lens
'Cause I feel a gypsy honeymoon comin', comin'
Comin', comin', comin' around again"
Just throw the car in gear, throw the car in gear
Put the zoom on the lens, put the zoom on the lens
Yeah, we're hot as a gypsy honeymoon comin' around again
