

# She Be the One

## Enrique Iglesias

She be the one She wakes you up early in the morning  
She tells you, baby, I feel a little horny  
She brings you up and then you know you want it  
I like the way you give it girl Your mouth is dry, your heart is beating faster  
You wanna die but you're too afraid to ask her  
She pops a gun, your prayer's already answered  
Tick tock bang, thank you ma'am Don't fool yourself  
You can't stop it if you try  
And it's a bumpy ride She be the one  
She be the drug  
She's gonna take you high, take you low  
Never get enough She be the one  
She be the bomb  
Watch out here she comes  
You know you're gonna get some She hits a club and everybody watches  
And when she dances, everybody wants it  
The kind of girl, you've kinda gotta watch it  
She might just get away She makes you wait, she likes to play that kind of game  
She takes your money, you gladly give it all away  
She makes you nasty even wanna feel pain  
Then she'll make you born again But don't fool yourself  
You can't stop it if you try  
And it's a bumpy ride She be the one  
She be the drug  
She's gonna take you high, take you low  
Never get enough She be the one  
She be the bomb  
Watch out here she comes  
You know you're gonna get some You know you're gonna get some  
You know you're gonna get some  
You know you're gonna get some  
You're really gonna get some You know you're gonna get some  
You're really gonna get some  
You know you're gonna get some She be the one  
She be the one, yeah She be the one  
She be the drug  
She's gonna take you high, take you low  
Never get enough She be the one  
She be the bomb, she be the bomb

Watch out here she comes  
She be the one, she be the one  
She be the drug  
She's gonna take you little high, take your little low  
Never get enough  
She be the one  
She be the bomb  
Watch out here she comes  
You know you're gonna get some
