

Kiss Tomorrow Goodbye

[Luke Bryan](#)

All we do right is make love
We both know now, that ain't enough
Ain't gonna beg you stay, ain't gotta ask you what's wrong
Ain't no reason running after something already gone
Take off your leavin' dress, let's do what we do best
I guess everybody's got their way of moving on
Girl, rest your head, one more time in my bed
Love me like you love me when you loved me and you didn't have to try
Let's lay down tonight
And kiss tomorrow goodbye
Baby, who we are, just didn't work
But maybe we can leave with something out of all this hurt
Ain't gonna beg you stay, ain't gotta ask you what's
wrong
Ain't no reason running after something already gone
Take off your leavin' dress, let's do what we do best
I guess everybody's got their way of moving on
Girl, rest your head, one more time in my bed
Love me like you love me when you loved me and you didn't have to try
Let's lay down tonight
And kiss tomorrow goodbye
Ain't gonna beg you stay, ain't gotta ask you what's wrong
Ain't no reason running after something already gone
Take off your leavin' dress, let's do what we do best
I guess everybody's got their way of moving on
Girl, rest your head, one more time in my bed
Love me like you love me when you loved me and you didn't have to try
Let's lay down tonight
And kiss tomorrow goodbye
Let's kiss tomorrow goodbye
