

Extinguish (Live from Richmond)

Strike Anywhere

Brah these silences around me
Wrap these silences around me
With the darkness all that i see
Societies of bitter temper these headstones
I pedal through with your restless spirit by my side no longer
i carry on for you no regrets no anger seize this time
we'll push it through your lifetimes
lived in sorrow for too long now, we'll cary it onFrom ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's borders
United by what we do not who we labor for
From Ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's border
United by what we love not who we suffer forWe'll take it back and undermine the attack
tired of holding onto faulures for no reason this guilt is not our gluse
signs of the times we remember these headstones
I pedal through your restless spirit by my side no longerFrom ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's borders
United by what we do not who we labor forFrom Ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's border
United by what we love not who we suffer forWe are leaving into the earth
we go new seeds for common wealth
Wrap these silences around me
With the darkness all that i see
we'll seize this time don't throw it away
we'll seize this time don't throw it away
seize this time don't throw it away
we'll carry it onFrom ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's borders
United by what we do not who we labor for
From Ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's border
United by what we do not who we labor forFrom ashes we're learning
Richmond is burning

Disrupt and disorder at the empire's borders
United by what we do not who we labor for
From Ashes we're learning
Richmond is burning
Disrupt and disorder at the empire's border
United by what we love not who we suffer for We are leaving into the earth
we go new seeds for common wealth
