

# Hard Work

## The U.S. Air Force

No I'm not talking from experience  
But I think I've found magnificence  
And in the end of the day you give me hard work  
    But you're good for me  
I know you seem to make my body ache  
    It's a feeling I appreciate  
    Which makes it easier when you give me hard work  
But you're good for meThis time I know I won't be proved wrong  
    This time to win you gotta lose some  
    Sometimes I just wanna give you up right away  
But then you go and brighten up my dayI know I'm not wasting my time  
    For you to be the reason I cry  
    And no I'm not gonna lie  
    You're hard work  
    But you're good for me  
And you're the one who's by my side  
    When I'm going out of my mind  
    But 99% of the time you're hard work  
But you're good for meAnd when I'm losing all my energy  
    You're like my only working remedy  
And when I struggle to breathe it's 'cause you're hard work  
    But you're good for me  
    And when I start to feel I've had enough  
    And my head is feeling kind of wrong  
    And then I'm thinking it's tough  
    When you're hard work  
    But you're good for me  
This high is a feeling that I'm fixed on  
    I know it was worth it in the long run  
    'Cause somehow everything just fell into place  
And you can tell by the smile on my faceI know I'm not wasting my time  
    For you to be the reason I cry  
    And no I'm not gonna lie  
    You're hard work  
    But you're good for me  
And you're the one who's by my side  
    When I'm going out of my mind  
    But 99% of the time you're hard work  
    But you're good for meHm, hard work

Hmm, hard work  
    Hmm, you're hard work  
    But you're good for me  
    Hmm, hard work  
    Hmm, hard work  
    Hmm, you're hard work  
    But you're good for meBut I'm not running away, no  
A little bit of light is all it takesI know I'm not wasting my time  
    For you to be the reason I cry  
    And no I'm not gonna lie  
    You're hard work  
    But you're good for me  
    And you're the one who'd be by my side  
    When I'm going out of my mind  
    But 99% of the time you're hard work  
    But you're good for meHmm, hard work  
    Hmm, hard work  
    Hmm, you're hard work  
    But you're good for me  
    Hmm, hard work  
    Hmm, hard work  
    Hmm, you're hard workBut you're good for me, yeah, oh  
    Yeah, yeah, yeah, oh
