

Fog

Owle

Here in my mind
I let some colors wash on me
I don't see your smile
please let me get close to you
close to you

Warm in your "arms"
at least I can close my eyes
but I didn't feel your heart
please let me get close to you
close to you
colors colors
please please

let/get some colors
Who's this boy in the fog
his face is on the ground
Who're these boys in the fog
together we could jump and...
Our hands deep in the fog
Your face is on the ground
Who're these boys in the fog
together we could jump and...

Here in my car
I've left some clothes of mine
and I'm afraid to be mortal
please let me get close to you
come with you

Here in my mind
I let some colors blast on me
I don't see your smile
please let me get close to you
close to you
Who's this boy in the fog
his face is on the ground
Who're these boys in the fog
together we could jump and...
colors colors
please please
let some colors...
