

# Christine

## SubRosa

Hear her coming 'bout 5 miles away  
That girl is something, know she gonna make my day  
    Ah, she is so fine, a real good friend of mine  
    I just wanna jump her bones all the time  
    See her walking, she knows all the moves  
    Fortune cookie, send your toes up in your shoes  
    Oh, you can't believe what she got up her sleeve  
    Likes me fine and that's just fine with me  
    Christine, going out of my mind, like to drive me wild  
    Red hot mama, ain't no lie, so glad I caught your eye  
    Christine, you put your hands on me, I got electric blood  
    Come on over and do it again, just like a bad girl should  
    She moves like a rattlesnake made out of razorblades  
    That girl can't help it, just the way she's made  
    I would run all 'round the world, just to see that girl  
    She sure loves playing with the 'Ace of Spades'  
    Christine, drive me out of my head, like to drive me wild  
    Red hot mama, ain't no lie, so glad I caught your eye  
    Christine, you put your hands on me, I got electric blood  
    Come on over and do it again, just like a bad girl should  
    Christine, drive me out of my mind, like to drive me wild  
    Red hot mama, ain't no lie, so glad I caught your eye  
    Christine, you put your hands on me, I got electric blood  
    Come on over, do it again, just like a bad girl should  
    Christine, Christine  
    Christine, I just wanna jump her bones  
    She's my baby
