

# Listen to the Mockingbird

[Kenny Roberts](#)

Looked out my window just today, saw Mockingbird  
and he sang the saddest song I ever heard,  
If he stay's here-that's the way he'll always be  
especially if he's just mocking me,

Fly away,  
Mockingbird,  
leave me all alone  
for since my baby left-I've cried the whole night long,

Fly away,  
Mockingbird,  
believe me when I say,  
if you keep mocking me-your gonna cry your life away,

I wonder if hes mocking me or is he blue  
could it be he knows how much I cared for you,  
I wonder if he might have lost a mate in flight  
the way I've lost the one I love last night,
