

Learn to Love

Vanessa Bell Armstrong

We're living to fast
Caught up in satisfaction, yeah
We're missing so much
Don't even know we're disconnected
Oh, but where's the love that makes us stronger
Binds the hearts of every color
In the end we're all God's children now
We gotta learn to love
Need action for resolution
We need a revolution
Need to come close to each other
One love of sisters and brothers
Come on where's the love that makes us stronger
Binds the hearts of every color
In the end we're all God's children now
We gotta learn to
Pray for each other, stand in together
We'll see His kingdom come, shinning like the sun
Something is stirring, a new day is calling
Jesus is the King, we lift our voice and sing, yeah
Where's the love that makes us stronger
Binds the hearts of every color
In the end we're all God's children now
We gotta learn to love
In the end we're all God's children now
We gotta learn to love
We gotta learn to love
