

Amphetamine

Superdrag

You're the next local superstar
Take a bow if you get this far
Nothin's real baby, make a move
Some expected groove Prove it to the world
Now drink and be real
This is the last time Hard to conceal
The flavor of strychnine
Whenever you steal
You make it the right line You're the next disappointing boom
Burning out in the same black room
Nothin's real if you read the news
If you bled the blues Prove it to the world
Now drink and be real
This is the last time Hard to conceal
The flavor of strychnine
Whenever you steal
You make it the right line Rollin' with some friends of mine
Her love is an amphetamine
Rollin' with some friends of mine
Yeah, her love is an amphetamine Rollin' with some friends of mine
Oh yeah, her love is an amphetamine
Rollin' with some friends of mine
Yeah, her love is an amphetamine Rollin' with some friends of mine
Her love is an amphetamine
Rollin' with some friends of mine
Yeah, her love is an amphetamine
