

Woman

Brother Cane

I used to know better
Now I don't know what's worse
Having it all maybe
Or having nothing for sure Shoot for the moon
Getting lost in the clouds
I'd like to land but I
Can't see where I'm coming down My baby
Do you understand
What I'm going through?
Oh, my baby Searchin' my soul
And the answer's the same
I'm in control but I
Don't know the rules of the game One step ahead
We take two steps back
I get the picture but it's
Always fading to black My baby
Do you understand
What I'm going through?
Oh, my baby, oh, oh, oh Well, searchin' my soul
And the answer's the same
I'm in control but I
Don't know the rules of the game One step ahead
I take two steps back
I get the picture but it's
Always fading to black
Yes, always fading to black Woman keep me warm
Woman keep me warm
Caught in this chain and it's all the same
Woman keep me warm Woman keep me warm
Woman keep me warm
Woman keep me warm
Woman keep me warm
We're caught in this chain and it's all the same
Woman keep me warm
