Project 86

Night falls like a vulture
On it's prey, wicked culture
Black pitch and getting darker
It's time to spark ourselves in this hour
When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
You're laid bare, foolish mortal
Dark deeds, mass inferno
Covert crimes, closet portal
Your skeletons are burning eternal
When they hide in the shadows of night
Light ?em up, light ?em up in the dark

Let's ignite, we're the ones
When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
