

# New York at Night

## Old Dominion

Girl you're like a model on a Soho street  
Walking on air like you own it  
It's like I'm sipping on a bottle in a penthouse suite  
You're lighting me up and you know it With that just right Friday night curl in your hair  
Got my heart beating louder than Madison Square  
That electric energy  
Something tells me you're gon' keep me going til the morning light  
Girl you're like New York at night  
(I ain't gonna be sleeping)  
New York at night  
(Girl you got me feeling)  
Empire high  
That uptown something  
It's got me coming alive  
Baby you're like  
New York at night  
A party ain't a party, girl, 'til you walk in  
'Cause where you are is where everything happens  
You could spin the globe and no matter where it lands  
Kick your feet up and call it Manhattan You're like a Tiffany mannequin down on 5th Avenue  
Making every other woman wish that they could be you  
That electric energy  
Something tells me you're gon' keep me going til the morning light  
Girl you're like New York at night  
(I ain't gonna be sleeping)  
New York at night  
(Girl you got me feeling)  
Empire high  
That Uptown something  
It's got me coming alive  
Baby you're like  
New York at night  
Girl you're like a model on a Soho street  
Walking on air like you own it New York at night  
(I ain't gonna be sleeping)  
New York at night  
(Girl you got me feeling)  
Empire high  
That Uptown something

It's got me coming alive  
Baby you're like New York at night  
(Places and streetlights)  
New York at night  
(Shining in your eyes)  
Empire high  
That Uptown something  
It's got me coming alive  
Baby you're like  
New York at night  
New York at night
